Your Commitment to us

You are required to contact potential customers.

Due to the product's features, personal visits are the preferred contact method. After explaining the product, as sales can only be completed on-line so you will need a mobile device such as a Tablet or Laptop to close the sale. No money is collected.

There is no recurring need to ever re-visit a customer

You need to maintain an active sales book as recurring commissions are only paid to active Agents

Our Commitment to you

To maintain and keep open our website. To respond to orders, issue initial invoices within 24 hours, receive customer advance payments, calculate commissions due and pay Agents all sales commissions, no later than 7 days after they fall due.

Your income

A Sale (confirmed when a business customer pays their first invoice) will result in a site's service going live. That live date becomes the Sales Date and generates a commission payment equal to the customer's set-up charge (£9.95).

A quarterly commission is then payable for the next three quarters to make a total income per customer of £39.85..
